## TIM-401 Manual

### TIM-401-RCONV

The **TIM-401-RCONV** wheel kit is designed to replace the pneumatic tires (below) or solid rubber tires on the TIM-401 series cart. The TIM-401 series cart is a component of the TIM-730 series cart. The two, front wheels (10" x 2") do not swivel.

Please note, **TIM-401-RCONV** includes bearing mounted wheels and tires, axles, washers and cotter pins (below). The Wheel Kit contains all parts required to convert a pneumatic tire or solid rubber tire cart to polyurethane tires. The kit does not include the swivel caster.
